Award-Winning Vino Pins Arrive in Europe

London, UK | Welcome to the intersection of wine and design. The award-winning VintageView Wine Storage Systems' **Vino Pins** are now available throughout Europe. These impossibly modern and chic wine racks for a new generation of collectors.

Vino Pins were designed with a simple goal: To get out of the way of the wine. These commercial-grade, aluminum or acrylic pins are modern, minimalist and can anchor a collection of one — or thousands.

This label-forward rack takes a sharp aesthetic turn from our hallmark Wall Series racks, replacing mounting strips with the freedom to install pins wherever you have a bottle's width of space.

Configurations are limited only by imagination.

Vino Pins are expandable with extension kits, allowing for one-, two- and three-bottle deep configurations. They are designed to show off private and commercial collections of any size. This is **the only metal pin system that can mount directly** to your wall surface, even plasterboard (surface must be ½-inch thick or greater). No backer board needed.

Vino Pins Starter Sets (one bottle) come with or without support collars, which allow for plasterboard installation. Extension kits can extend the display depth to a total of three bottles (aluminum versions only).

Vino Pins are available in milled aluminum and anodized black finishes, as well as clear acrylic.

Vino Pins Options:

- Starter Set (one bottle) for wood-backed installations
